HEDIS PROVIDER EDUCATION

As a part of L. A. Care’s collaborative effort to improve quality of care to Preferred IPA’s members, the HEDIS Operations/Healthcare Outcomes and Analysis created these user-friendly HEDIS reference guides for you and your staff.

The reference materials may help promote accurate, complete, and timely documentation as well as data submission to L. A. Care. They are designed to help your practice provide the best quality care, in alignment with the HEDIS standards.

Additionally, should you opt to participate in the P4P Program, these reference guides may also help you maximize the incentives you receive as part of L. A. Care’s Physician Pay-for-Performance Program for Medi-Cal and L. A. Care Covered members.

To access or receive a copy of these materials, please visit <http://www.lacare.org/providers/provider-resources/hedis-resources>

HEDIS MADE EASY presentation may be viewed on Preferred IPA’s website:
